Combination Therapy for Cancer**

Examiner: T. McKelvey

Group Art Unit: 1636

9 April 1999

Assistant Commissioner for Patents
Washington, DC 20231

RESPONSE AND AMENDMENT

Sir:

The following is in response to the non-final Office Action dated 22 December 1998.

In the Claims

Please amend the claims as follows:

B1
1. (amended) A method of enhancing the cytotoxic effects of an antineoplastic chemotherapeutic agent, comprising administering to a subject in need of such therapy a therapeutically effective amount of an NF-κB inhibitor in conjunction with the administration of the chemotherapeutic agent, whereby the cytotoxic effect of said chemotherapeutic agent is increased compared to that which would occur in the absence of said NF-κB inhibitor.

A2
6. (amended) A method of enhancing chemotherapeutic cytotoxicity in a subject treated with an antineoplastic chemotherapeutic agent, comprising administering to the subject a therapeutically effective amount of an NF-κB inhibitor in conjunction with the administration of the chemotherapeutic agent, whereby the cytotoxic effect of said chemotherapeutic agent is increased compared to that which would occur in the absence of said NF-κB inhibitor.
